Professional Profile

I am Geologist/Geophysicist by background. I spent more than 37 years with Eni Exploration & Production Division, formerly Agip Spa starting as a Junior Geophysicist and reaching the position of General Manager and Eni Representative. I have worked in diverse countries and realities, leading multicultural teams. Through my versatile and international career, I have gained an in-depth knowledge of all stages of the international oil and gas business; additionally, I have acquired knowledge of most of the Geological Basins around the world. Since 2010, I have been an external contract professor of Petroleum Geology at the University of Pavia, Italy. After my retirement from Eni in January 2015, I have dedicated my full time transferring my experience to university students and junior geologists/geophysicists.
